CONTENTS	PAGE
Introduction / Training Aims	3
Assessments	4, 5
Communication Skills	6, 7
Clinical Management Skills	8-22
Practical Skills	23
Contact details	24

## PRACTICAL SKILLS

Wound management	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Cardiopulmonary Resuscitation Training	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Airway (C-spine control)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Splinting / immobilisation	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Reduction of fracture / dislocations (local and regional anaesthetic techniques, pain relief)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Interpretation of investigations	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

## 24. Legislation / Statutory Circulars

Consent, competence, confidentiality, refusal of treatment, Mental Capacity Act	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Vulnerable Adults (less relevant now)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Mental Health Act	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Data Protection Act	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Access the Health Records Act	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Patient's Charter	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
NHS and Community Care Act	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Role of the Coroner	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Organ / Tissue Donation	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Hospital Complaint Procedure Act	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Equal Opportunities Act	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Human Rights Act	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Good Medical Practice	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

## INTRODUCTION

Emergency Medicine experience provides extremely valuable and relevant training for General Practice.

As in General Practice, many of the patients are presenting a problem for the first time, and doctors working in Emergency Medicine also have the added responsibility of deciding if it is safe to send patients home.

Similarly, as in General Practice, working is often quite intense with time pressures and high caseload.

## TRAINING AIMS

The Derby GP Specialty Training ST1 and ST2 posts at the RDH provide jobs giving an ideal mix of experience for a future GP.

This guide is designed to help you identify the clinical learning opportunities within the post.

The Emergency Medicine teaching staff will be able to help you define and remedy any gaps in your knowledge or experience.

They will provide you with a series of clinical assessments (see below). You are responsible for making sure these take place and that they are properly documented.

The Emergency Medicine team have kindly agreed to ensure that you will be able to attend the GP Training Half Day Release Teaching Sessions. At times this will inevitably clash with your on-call responsibility.

Apart from the Wednesday afternoon GP Training sessions you should try to attend the in-house educational meetings which are held at lunch times on Thursdays.

## ASSESSMENTS

### RECORDING ASSESSMENTS

All assessments should be recorded in your e-portfolio. This is your responsibility although your Clinical Supervisor and Educational Supervisor will also have to complete assessments on your e-portfolio. The e-portfolio forms a continuous record of your progress and will be submitted to the Deanery to “sign you off” at the end of your training. If you are having technical problems with the e-portfolio please contact the e-portfolio Enquiries/Help.

### WORKPLACE BASED ASSESSMENTS

A series of workplace based assessments are also needed. These are similar to the foundation post assessments you may have already done.

During your 4 months post you will need to do the following Assessments:

- ⇒ **2 x Mini-cex** (Clinical Examination exercises)
- ⇒ **2 x CBDs** (Case-based Discussions)
- ⇒ **1 x MSF** (Multi-source Feedback )  
5 Clinicians only
- ⇒ **2 DOPS** (Direct Observation of Procedures)

The DOPS that you may wish to consider in this post are:

1. Fracture reduction
2. Suturing
3. Foreign body removal

Your consultant will also need to complete a **Clinical Supervisor’s Report** which he/she will discuss with you before submitting.

### 20. Maxillo-facial Conditions

Dental emergencies	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Facial fractures / jaw dislocation	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

### 21. Dermatology

Common rashes	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Awareness of dermatological emergencies and appropriate referral	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

### 22. Social Emergencies

Overall care of the patient	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Frequent attenders	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Homelessness	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
“Hospital hopper” / Fictitious illness	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

### 23. Haematological Emergencies

Haemoglobinopathies Sickle Cell Crisis (RARE)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Haemophilia - eg haemorrhorrhis (VERY RARE)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

## 18. Behavioural Emergencies

Mental state examination	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Managing the aggressive or violent patient safely	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Organic illness manifest as behavioural disorders	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Acute psychosis	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Deliberate Self-Harm	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Suicidal and homicidal evaluation	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Drug and alcohol misuse	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

## 19. Geriatric Emergencies

Psycho-social assessment	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Mental state examination	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Mobility assessment	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Multi-system pathology	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

**Remember: “The E-portfolio is King”  
You must keep a copy of all assessments as  
they will be needed in the future**

## HOSPITAL JOB ASSESSMENTS

You will be contacted by the Deanery (via your E-portfolio) to complete an on-line assessment of your hospital post. (Bristol on-line Survey) This is mandatory and is a requirement of training.

## SKILLS

Apart from the skills listed on the pages that follow, you will also need to be aware of the following during your time in Emergency Medicine:

1. Looking after yourself—recognising signs of tiredness/stress and preventing where possible.
2. Multi-tasking safely
3. Flexible working according to conditions
4. Liaison with medical and other colleagues

The GP Curriculum is keen to divide skills into three categories.

- ⇒ **Communication Skills**
- ⇒ **Clinical Management Skills**
- ⇒ **Practical Skills**

There is obviously considerable overlap.

### COMMUNICATION SKILLS

The ability to establish rapport quickly and effectively with patients of all backgrounds	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Patient centred focussed history taking	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
An ability to communicate well with both patients and relatives and other members of the Emergency Department Team	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

## CLINICAL MANAGEMENT SKILLS *continued*

Seizures	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Stroke	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Collapse	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

### 17. Musculo-Skeletal Conditions

Orthopaedic and neuro-vascular extremity examination	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Strains / sprains / fractures	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Dislocations	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Hot red joint (exclude sepsis)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Soft tissue injury / infection	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Traumatic compartment syndrome (RARE)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Back pain and spinal pathology (Esp cauda equina and red .....)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

## CLINICAL MANAGEMENT SKILLS *continued*

<i>Bites</i>		
• Dog / cat / human / Insect	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Tetanus prophylaxis / Immunoglobulin	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

Anaphylaxis and Allergic Reactions	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
------------------------------------	---------------------------------	--

### 15. ENT Conditions

Upper airway obstruction	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Epistaxis is very common. Septal haematoma is RARE.	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Foreign bodies	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Infections	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

### 16. Neurological Emergencies

Coma	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Headache / subarachnoid haemorrhage	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Meningitis	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

## COMMUNICATION SKILLS *continued*

Remaining calm and resourceful even under pressure	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/>	Confident <input type="checkbox"/>
An ability to defuse fraught situations	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/>	Confident <input type="checkbox"/>
Ability to break bad news utilising the skills of empathy and sensitivity using the correct environment and other team members skills where appropriate	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/>	Confident <input type="checkbox"/>
Keeping clear records with enough clinical information to help colleagues who may be involved in future patient care episodes	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/>	Confident <input type="checkbox"/>
Safety-netting—addressing the “what if” so that patients know what to do if their condition changes for the worse after discharge from Emergency Department	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/>	Confident <input type="checkbox"/>
Medico-legal statements	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/>	Confident <input type="checkbox"/>
Liaising with other agencies (e.g. police, coroner) whilst respecting patient confidentiality	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/>	Confident <input type="checkbox"/>

## CLINICAL MANAGEMENT SKILLS

### 1. Cardiovascular Disease

<i>Cardiopulmonary Resuscitation</i>	
• One and two rescuer CPR	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Choking Victim (RARE IN ED)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Adult CPR	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

<i>Advanced Life Support (certification is expected)</i>	
• Recognition of ventricular fibrillation/ventricular tachycardia/asystole/pulseless electrical activity/bradyarrhythmias	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Protocols drugs and pacing	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Resuscitation team leadership	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

<i>Cardiac and other emergencies presenting as <b>Chest Pain</b></i>	
• Acute coronary syndromes (angina pectoris, myocardial infarction)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Thrombolysis, glycoprotein inhibitors, angioplasty	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Pulmonary embolism	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Aortic dissection (ruling out)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

## CLINICAL MANAGEMENT SKILLS *continued*

### 14. Environmental Emergencies

<i>Burns</i>	
• Grading / resuscitation	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Smoke inhalation	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Outpatient treatment	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

Heat illness (unusual)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Hypothermia	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Near drowning (special rules with reference to children and cold water immersion) (RARE)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Electrical injury (including lightning)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

**CLINICAL MANAGEMENT SKILLS *continued***

**12. Toxicological Emergencies**

Recognition of clinical syndromes	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Initial treatment of poisoning	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Agent-specific therapy	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Role of poison centres/databases	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

**13. Childhood Emergencies - Possibly some experiences may be available in Children's ED if Adult A&E workload permits.**

**CLINICAL MANAGEMENT SKILLS *continued***

Heart failure and pulmonary oedema	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Narrow / broad complex tachycardias	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Hypertensive emergencies (RARE)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Peripheral vascular disease	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

**2. Trauma**

<i>Basic Life Support (certification is expected)</i>	
• Primary Survey/ Resuscitation	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Secondary Survey	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Definitive Care	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Head and Facial Trauma	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
<i>Abdominal Trauma</i>	
• Blunt / penetrating	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Special investigations (US, CT)	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

<i>Chest and Cardiac Trauma (RARE)</i>		
• Blunt / penetrating	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Tension / pneumothorax	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Cardiac tamponade	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Ruptured aorta	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Flailed chest / lung contusion	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Massive haemothorax	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

Genito-urinary trauma	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
-----------------------	---------------------------------	--

<i>Extremity Trauma</i>		
• Hand injuries	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Skeletal trauma	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Vascular trauma	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Soft tissue injury	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

Spinal trauma (immobilisation / "logrolling")	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
---	---------------------------------	--

Trauma in the elderly	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
-----------------------	---------------------------------	--

Trauma in pregnancy	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
---------------------	---------------------------------	--

Use of imaging and investigations in Trauma	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
---	---------------------------------	--

## CLINICAL MANAGEMENT SKILLS *continued*

Haematuria	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Post-exposure prophylaxis - needlestick injury (as part of needle stick)	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

### 11. Infections

Hepatitis in Jaundice Patient	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Lower/upper UTI	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Sepsis	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Malaria (excluding in returning traveller)	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Pyrexia of undetermined origin / sepsis	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Cellulitis	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Pneumonia	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Surviving sepsis bundle	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Clostridium Difficile Infections (AAD)	Unsure <input type="checkbox"/>	Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

## CLINICAL MANAGEMENT SKILLS *continued*

### 9. Gynaecology & Obstetrics

Ectopic	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Pelvic inflammatory disease / lower abdominal pain	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Early and late pregnancy bleeding / Miscarriage	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Pre-eclampsia / eclampsia Presenting as eg headache abdo pain	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

### 10. Genito-urinary Medicine

Sexually transmitted diseases	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Epididymitis / Orchitis / Prostatitis	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Testicular torsion	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Sexual assault	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Renal colic	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Urinary Tract Infections	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

### 3. Anaesthesia

Principles of airway management	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Pain relief	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Eg: Ring Block, Regional Blocks, Haematoma Block, Fascia Iliaca compartment Block	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Interface with intensive care	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

### 4. Shock

Recognition of the ill patient Clinical findings and differential diagnosis	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Fluid resuscitation	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Blood/blood products	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

### 5. Pulmonary Emergencies

Evaluation of dyspnoea	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Asthma	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Chronic obstructive airways disease	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Foreign body	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

## CLINICAL MANAGEMENT SKILLS *continued*

Pneumothorax	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Chest infection	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Acute respiratory failure	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Haemoptysis	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

### 6. Gastrointestinal Conditions

Acute GI bleed	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Vomiting, diarrhoea, dehydration	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Abdominal pain evaluation	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

### 7. Ophthalmology

<i>The Red Eye</i>	
• Conjunctivitis	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Acute glaucoma	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Uveitis	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

## CLINICAL MANAGEMENT SKILLS *continued*

<i>Trauma</i>	
• Foreign body / corneal abrasion	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Chemical burns	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
• Hyphaema and blow-out fracture	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>

Causes of visual impairment	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
-----------------------------	--

Orbital cellulitis	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
--------------------	--

### 8. Metabolic Emergencies

Hypoglycaemia	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Ketoacidosis / hyper-osmolar states	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Electrolyte abnormalities	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
Acid-base abnormalities	Unsure <input type="checkbox"/> Satisfactory <input type="checkbox"/> Confident <input type="checkbox"/>
