General Practice is facing a time of unprecedented pressure. Sheffield LMC is organising this event in order to bring Sheffield GPs, GP Trainees and Practice Managers together to receive an update on the national picture and to discuss much needed national and local solutions.

We are delighted that Dr Richard Vautrey, Deputy Chair of the General Practitioners Committee (GPC) will be attending to give a national update.

There will be a Q&A session, with a panel comprising of GPC and LMC Executive representatives, as well as a number of other organisations (to be confirmed).

More detailed information will be issued w/c 8 February 2016

As places are limited, it is essential that you register to attend. To register please email administrator@sheffieldlmc.org.uk confirming your full name, practice address (if applicable) and number of places you wish to reserve.

Thank you.
