Dear Sir/Madam

We are a group of people with learning disabilities from [Paperworks](#) that are working with [Fixers](#) and [YouthWatch](#), the young people's group at Healthwatch Leeds.

Here is a video and poster we have made.

The video is about how a patient feels about being examined and how a doctor interacts with people. The video is based on our own experiences of how we sometimes feel when we go to the doctor. You can expect a screenplay set in a doctor's surgery. We have made the video because doctors don't always explain things to people with learning disabilities. We want to change that.

Please watch the video. If you have any feedback please let us know. We really hope you can display the poster in your surgery and show the film to your staff, maybe in one of your training days.

Yours sincerely

Gurdesh Birdi Ashley Cundall
