

The Resolution Health Centre

Resolution Health Centre, North Ormesby, is situated in the outskirts of Middlesbrough. Resolution is part of South Tees Hospitals NHS Foundation Trust and is a valuable part of our organisation with 44,305 patients using its services in 2015/2016.

Our Team

We are a team of three salaried GPs, one nurse practitioner, two practice nurses and one health care assistant. Our Practice Manager works closely with the Clinical Director for day to day operational management of the practice and its staff with support from the management team for Primary Care providing strategic direction and vision.

Our Services

The services that we provide to patients include routine and same day appointments, childhood immunisations, travel vaccinations and chronic disease management. Our services are planned and delivered to take into account the needs of different patient groups and to help provide flexibility, choice and continuity of care. Results from the national GP patient survey published in July 2016 showed that patients' satisfaction with how they could access care and treatment at Resolution was above the local CCG and the national average.

Being part of South Tees NHS Foundation Trust gives us great opportunities to develop services for patients and to develop ourselves professionally. You can develop a special interest in a variety of areas for example dermatology, frailty or rheumatology.

Situated in a modern Health Village there is access to neighbouring GP practices, dental facilities, pharmacies and other supporting services. We have great transport links being located near to the A66 giving easy access to main routes throughout Teesside.

CQC rated 'Good'
