

# Notting Hill Medical Practice

Committed to quality health care

Dr A. Darrah Dr L. Small Dr C. Doran Dr E. Downey  
Dr K. Cubitt Dr C. Mulholland Dr S. Monaghan

Notting Hill Medical Practice provides health advice on anti-malarial, vaccinations and disease prevention for the public travelling aboard.

We can provide you with your travel vaccines, immunisations plus advice on malaria and other travel health related issues for your journey.

You are advised to have your initial travel assessment well in advance of departure to ensure completion of vaccination courses. (4 to 6 Weeks)

Travel vaccinations available on the NHS do not incur any additional charge from the travel clinic. The cost to you will be the price of your prescription ONLY.

## **Private Travel vaccinations, which are not available on the NHS:**

**Anti Malarial**

**Hepatitis B**

**Japanese Encephalitis**

**Meningococcal**

**Rabies**

**Tick- Borne Encephalitis**

**Incur the following charges; this is in addition to your prescription charge.**

**£40 per adult**

**£20 per student and child under 16**

**£80 per family of four (max 2 Adults)**

**Payable on receipt of prescriptions.**

## **This price includes:**

- 1** Time required to research the vaccines for your travel and detailed written advice for your own reference.
- 2** Face to face consultation with a nurse experienced in travel.
- 3** Administration of any vaccines required, which are not covered by NHS prescriptions.
