PATIENT PRIVACY NOTICE

This Practice aims to provide you with the highest quality of healthcare. To do this we must keep records about you, your health, and the care we have provided or plan to provide.

These records may include:

- Basic details about you, such as address, date of birth, next of kin;
- Notes and reports about your health;
- Contact we have had with you such as clinical visits;
- Details and records about your treatment and care;
- Results of x-rays, laboratory tests etc.
- Relevant information from people who care for you and know you well, such as health professionals and relatives.

The people who care for you use your records to:

- Provide a good basis for all health decisions made by you and care professionals;
- Make sure your care is safe and effective;
- Work effectively with others providing you with care.

We may also need to use records about you to:

- Check the quality of care;
- Protect the health of the general public;
- Help investigate any concerns or complaints you or your family have about your health care

We will not share information that identifies you for any reason, unless:

- You ask us to do so;
- We ask and you give your consent;
- It is a clinical emergency;
- We have to do this by law
- You access appointments with another linked service, e.g. CHOC, enhanced access

Everyone working for the NHS has a legal duty to keep information about you

confidential. We have a duty to:

- Maintain full and accurate records of the care we provide to you;
- Keep records about you confidential, secure, and accurate;
- Provide information in a format that is accessible to you (e.g., in large type if you are partially sighted).

You have the right

- You have the right to confidentiality under the Data Protection Act 1998 (DPA), The General Data Protection Regulations 2018, the Human Rights Act 1998, and the common law duty of confidentiality.
- You also have the right to ask for a copy of your records to enable you to verify the lawfulness of the processing of data held about you – Please write to the Practice FAO Data Controller at the normal surgery address detailing the information you require. Alternatively, you can sign up for online access and request access to your records digitally.

In the unlikely event that you are unhappy with any element of our data-processing methods, you have the right to lodge a complaint with the Information Commissioner's Office. For further details, visit www.ico.org.uk and select 'Raising a concern'.

Medical Records

Lancashire and South Cumbria has been chosen by NHS England to be a national pilot for the digitisation of Medical Records. Scanning these paper-based records and making them digital will enable better utilisation of space, creating more clinical space, staff areas, multi team space and video hubs, removing the need for some practices to build extensions. In addition, it will also make your record more easily and speedily accessible to clinical staff within your practice.

Your complete GP medical record will be digital and stored in a secure cloud based clinical system (only accessible by your GP practice) with the paper-based records being securely destroyed following [BS EN 15713:2009](#) Secure destruction of confidential material. Your GP will still be able to access your records easily within this system. The scanning and destruction of the paper records will follow strict data protection guidelines adhered to by the NHS. As with paper-based records, digital records are stored for the durations specified in the [Records Management Codes of Practice for Health and Social Care](#). For GP patient records, this states that they may be destroyed 10 years after the patient's death if they are no longer needed.

If you wish to discuss the scheme, please inform the Practice direct either by letter or via e-mail: gp.a82008@nhs.net
