

The Five Parks

Primary Care Network

working together to support healthy communities in Bradford South

Our Purpose

To deliver joined up, effective primary care which has a meaningful impact on the health of all people in our communities, with a focus on reducing health inequalities.

To collaborate as a team and work at scale to; best meet the needs of our patients, nurture our staff, and strengthen our individual practices.

Our Values

Care	supporting patients with high quality care, developing our people to support one another
Collaboration	learning, implementing ideas, and achieving more together
Focus	tackling challenges to deliver what's important to our community
Progress	improving all of our practices' capability with new services and better access to funding
