Patient Guide

What is ZoomPhysio?

ZoomPhysio is the fastest way to receive physio plans from NHS-trained professionals for musculoskeletal conditions without the wait. Access them anytime, from anywhere.

Patients can self-refer or be directed to ZoomPhysio by their GP, receiving access to tailored online treatments for a range of MSK conditions in under 24hrs, with access to face to face treatment where required.

What is a musculoskeletal condition?

An injury or disorder of the muscles, nerves, tendons and joints.

Why use ZoomPhysio?

An audit of our services within UK Primary Care mapped the experiences of 1000 self referring patients

It concluded that;

- ZP provided rapid access to physiotherapy services (under 24hrs)
- High levels of motivation, self engagement and management across users
- The service can be used 24/7
- +70% of patients required no further treatment after using ZoomPhysio
- Significant time saving compared to traditional physiotherapy referrals

Step 1

I've just been referred to ZoomPhysio by my GP

You can access your free online physiotherapy treatment by visiting www.zoomphysio.co.uk/nhs selecting your GP and clicking **start treatment**

Find your NHS GP

ZoomPhysio is a free service provided by GPs to ensure the fast and effective treatment of musculoskeletal complaints. Simply hit 'Start Treatment' next to your registered GP below to begin.

If your symptoms include chest pain, breathing difficulties, significant balance loss, significant new weakness in your arms or legs, or you simply feel unwell, please do NOT use ZoomPhysio, and instead consult directly with your GP.
