

**Strains, sprains,
muscle or
joint pains, or
stiffness?**

**Have you
considered seeing
a musculoskeletal
specialist?**

Please speak to the
reception team for
more information
and to book your
appointment.

**The musculoskeletal
specialist can assess you
and give you some advice on
how to manage your problem
or refer you for investigations
and more formal treatment if
required.**

**Conditions a musculoskeletal
specialist could help with:**

- Back or Neck Pain
- Sprains & Strains
- Sprained ankles/
knees
- Shoulder pain
- Osteoarthritis
- Sports injuries
- Trapped nerves
- Whiplash

Please note, this service is only available to patients aged 16+
and is not available to patients who are pregnant.
