

My review for St Johns way
Medical Centre.

Well my name is [REDACTED], and
I've been a patient here for over 30 years.
during my time here then and now, I've
had so many different different incidences

Now if your looking for a practice, and you
have just moved into the area of Archway
homsey homsey, this is the one practice you
should register with.

The reasons as follows; Doctors here will greet you
with a smile

(1) As you [REDACTED] you served promptly, The
receptionist listen ~~to you~~ ~~to you~~ Very carefully
of what you require from them; They have
different options, The receptionist are Kind, helpful.
Consistent, efficient, competent, and Very friendly
its like coming from your home to their home

(THE PRACTICE)

Now my opinion on Doctors!!

 PTO
