## **Patient Participation Group**

The broad purpose of Kingsmead PPG (Patient Participation Group) is to give practice patients and staff the opportunity to be an advocate for patient preferences where appropriate, and obtain on-going input from them on the quality and range of services provided by the practice as well as the wider health service. It will also have the opportunity to influence and share decision-making in the running of certain aspects of the practice.

Volunteers will be required to take an active part in helping to improve patient services and experience at the Practice and the local NHS, and will be accountable to the Kingsmead GP Practice.

We aim to gather patients from as broad a spectrum as possible to gain a truly representative sample.
