Play Activity Videos!

Looking for ways to keep your children busy?
Here are a couple of simple play ideas for under 5s
that also help young children learn!

Balls and Skittles

Make a fun game of skittles using rolled up socks as balls and empty plastic bottles as skittles!

You can make it into a matching game by putting one sock over a bottle, and then using the other matching sock as a ball to try and knock it over!

Bubble Blower

Cut the top off a plastic bottle

Tape some netting from a net fruit bag over the cut end of the bottle

Dip it into a mixture of washing up liquid and water

Blow bubbles! Blow through the side where the bottle top would go

Watch our play activity videos on our website
