

# Check test results online

Using **MyGP app**

# NHS App

Download from App Store or Google Play

# Set up your account the first time

The screenshot shows the home page of the myGP website. The browser address bar displays "https://www.mygp.com". The page features the myGP logo at the top center, followed by the headline "One app for all your healthcare needs". Below this, there are three distinct sections, each with a title, a short message, and an illustration:

- I am a patient**: "Say goodbye to boring hold music, say hello to myGP@." The illustration shows a woman in a blue jacket holding a child in a hospital setting.
- I work in primary care**: "Your to do list just got shorter." The illustration shows a male doctor in a white coat standing next to a potted plant.
- I want to partner with myGP**: "Extend your reach by 3 million." The illustration shows a female doctor in a white coat holding a tablet, standing next to a male doctor sitting at a desk with a laptop.

The Windows taskbar at the bottom shows the search bar, taskbar icons for various applications, and system tray information including "4°C Cloudy", "ENG", and the date "05/12/2023".
