You may need security check the first time

The screenshot shows a web browser window with the URL www.nhs.uk/nhs-services/online-services/nhs-login/. The page title is "About NHS login - NHS". The main heading is "How to set up an NHS login".

When you first want to use a health and care website, app or service you may be asked to create an NHS login.

You will need an email address (with more than 6 characters) and mobile phone or landline number to set this up.

The first time you set up your NHS login, you'll need to prove who you are. This is so you can be connected to your NHS record. It also protects your health information.

Once you've registered and passed all identity checks, you can log in to the health and care website, app or service you want to access.

How to prove your identity

You may be asked to give different levels of proof of who you are depending on the website, app or service you're trying to access.

- [+ Low level proof of who you are](#)
- [+ Medium level proof of who you are](#)

The Windows taskbar at the bottom shows the search bar, task view, and various application icons. The system tray on the right displays the weather as "10°C Mostly cloudy", the time as "21:06", and the date as "10/12/2023".

Enter your email address

NHS NHS login

Enter your email address

If you have used the NHS App or other NHS websites or apps such as coronavirus (COVID-19) services, you should enter the email address you used to register for them.

We will check if you have an NHS login. If not, you can set one up.

The Universe of Genetic Testing

At a Glance

Why Get Tested?

To help diagnose the cause of anaemia or neuropathy (nerve damage), to evaluate nutritional status in some patients, to monitor effectiveness of treatment for B12 or folate deficiency

When To Get Tested?

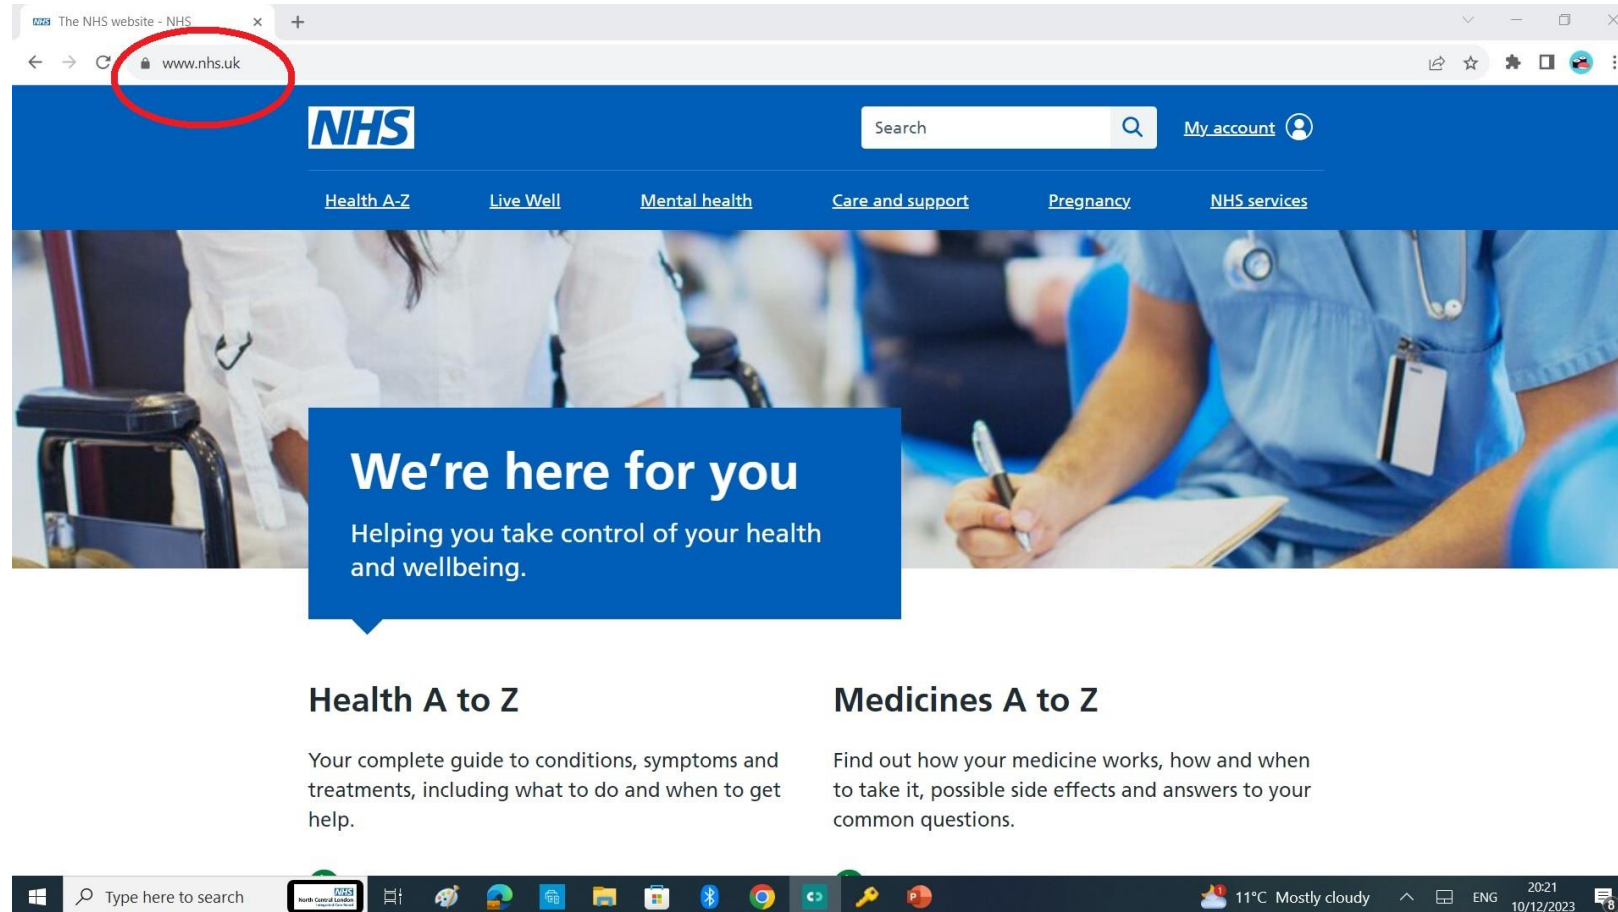

When you have large red blood cells, specifically when you have symptoms of anaemia and/or of neuropathy. When you are being treated for vitamin B12 or folate deficiency

www.nhs.uk

Still unsure? We are here for you.

The screenshot shows a web browser window with the URL `alexandrasurgery.com/index.aspx?logoff=1&p=F85675`. The navigation menu includes: Home, News, Online Services, Opening Times, Prescriptions, Appointments, New Patients, Services, Staff, and Contact Details. A "Have your say" button is visible in the top right. The main content area features a blue banner for "e consult" with the text: "Want advice from your doctor, self-help information or have an administrative request (such as a sick note or test results)? eConsult and get a response before the end of the next working day or sooner." Below the banner is a "GET STARTED" button. Underneath, there is a section titled "PRACTICE INFORMATION LEAFLET" with a QR code. The Windows taskbar at the bottom shows the search bar, system tray with weather (10°C Mostly cloudy), and date (10/12/2023).
