
New information for Asylum Seekers

Hello, my name is Elio Ajmone.

I am working as part of the team here at this medical practice to help patients who are seeking asylum.

I am here to help if you are having problems with:

- Stress
- Anxiety
- Loneliness
- Food and income problems
- Family worries
- Asylum application

...and any other worries you may have

I'll do my best to help you find ways to cope and connect you with the right support services.

Please ask at reception or ask the staff member you are seeing today to make you an appointment. I am available at the Thurston Road Practice every Tuesday morning (9am to 1pm).
