

WE'RE HIRING A SALARIED GP TEAM

Come and play a part in a brilliant story of bringing hope and seeing real change in the heart of Oldham

Are you a GP with a specialist interest area in diabetes, mental health, or women's health, or interested in developing these skills? Are you a GP looking for a leadership opportunity in a supported environment?

If you are a GP looking for new opportunities, we'd love to hear from you.

Our sessional rate starts at £10,250 with additional uplifts available for leadership, mentoring, and additional language skills (being able to consult in Bangla, Urdu, or Romanian). You will also be given paid protected time for mentoring, quality improvement, clinical meetings, and developing specialist interests.

Glodwick
Medical Practice

JOB SUMMARY

Hope Citadel Healthcare was formed with the aim of delivering healthcare that brought change and transformation to individuals, households and whole areas.

We run 10 practices in Greater Manchester and have achieved 4 Outstanding CQC inspections. We have been part of Glodwick's transformation story from being two failing practices, to where we are three years later with two Good inspections, an absolutely fantastic team, and a lot of stories along the way. We care about supporting our clinicians at all stages of their career.

- 13 minute appointments as standard
- Focused Care and other initiatives to tackle health inequalities
- Protected admin time in every session
- Weekly clinical meetings
- Internal mentoring programme
- Internal fellowships available for a session a week to learn and develop special interests
- Peer group across the company for "First 3s", and for clinical leads
- Real Living Wage employer
- Sessional rate starts at £10,250 with additional uplifts for specific language consulting skills, leadership, and mentoring, and protected time for quality improvement, clinical support, and special interest.
