

Kingsway Medical Centre, Billingham

Partner/Salaried GP with view to Partnership

(Up to 6 sessions per week)

We are seeking to recruit a Partner or Salaried GP with view to Partnership, to replace a retiring partner.

We offer a flexible and supportive working environment, ideal for new GPs; the GP Partners have a range of experience of 5 – 28 years, with two Partners having completed Registrar placements at the practice.

The partnership would be supportive of professional development. Special interests are welcome.

We are looking at innovative ways of working in the future and have systems in place that will allow home working. We have a strong team working ethos and have daily coffee meetings where peer review/support is a priority.

The practice area is diverse including Wynyard Estate, a luxury housing development and Port Clarence, an isolated community with high deprivation/social needs. There is an opportunity to provide weekly clinics from Port Clarence.

Key Information

- 9000 patients
- Teaching practice with GP Registrars and Medical Students
- Nurse Practitioner seeing acute same day patients
