NHS FIFE PRESCRIBABLE GLUTEN-FREE FOOD (GFF) LIST

Every month you may select a number of units of gluten free food from the following pages using the Gluten-Free Food Requirement Order Form each month. You may choose any combination of products to reach your allocated number of units. You will be informed of the number of units you are allowed by your Dietitian, GP or Community Pharmacist (Chemist).

NUMBER OF MONTHLY UNITS =

- You must be registered with your chosen pharmacy to receive this service. You must be careful not to go over your monthly units when ordering. It is not possible to 'carry over' units from one month into the next.
- Only approved foods considered as 'dietary staples' that form the basis of a nutritionally balanced diet are included in the list and include breads and rolls, flours or bread/pastry mixes, pastas, crackers crispbreads, pizza bases and xanthan gum. Gluten-free foods considered 'luxury items' include biscuits, cakes and cake mixtures are not normally available on prescription.
- The list (formulary) will be applied to all Gluten Free Foods supplied across NHS Fife for people choosing to receive their foods direct from their nominated pharmacy or continuing to receive a prescription from their GP practice.
- The list does not include all foods that are currently available on prescription. This is a local Fife list which includes products mainly stocked in the pharmacy warehouses – products that have expensive delivery and handling costs are not included.
- Some of the products contain Codex wheat starch, an ingredient that is safe for people with coeliac disease. We highlight products with Codex wheat starch with a triangle ▲.
- New products may become available and some products may be deleted. Your local Community Pharmacist can keep you updated. If you have any additional diagnosed food intolerances or allergies please contact your local Dietitian for more information. This list will be reviewed every 3-months to begin with to ensure the products included remain easily available.
- If you have any problems with access to the products listed please speak to your Pharmacist who will be able to help. It is important to arrange with your pharmacist details of when the products ordered should be collected.
- Further information about the Gluten Free Food Service is available at <u>http://www.nhsinform.co.uk/GFFSeligibility</u> and an online version of the NHS Fife Gluten Free Food List is available at <u>www.nhsfife.org</u>

Allocation of Units

People with CD have varying nutritional requirements for gluten free foods depending on their age, gender, occupation and lifestyle. The following tables provide information regarding nationally agreed prescribing quantities through the Unit Allocation and the number of units the various prescribable products contribute. The allocation may need to be increased for people with particularly active lifestyles or occupations. Exceptions to these amounts should be on the advice of a dietitian.
