

Hampshire Fire and Rescue

Area covered: Whole of Hampshire

Responding to emergencies of all types from Fire, Road accidents, Chemical incidents, Rescues from height and Water. We also respond to over 10,000 Category A medical emergencies in the rural areas of Hampshire in a co responder scheme in conjunction with the Ambulance Service. A priority of Hampshire Fire and Rescue is prevention, This not only involves prevention of fires, but all types of emergencies including accidents in the home and within the Health and wellbeing arena. After our successful work with youth using schemes such as Positive Role Model, Leadership days, LIFE courses, we are currently working with the CCG to deliver work with young people who have been identified as obese or starting self harming. We also hope to begin working with the elderly more to prevent accidents in the home, and sign post them to the appropriate care and advise packages. We offer Home Fire Safety checks and visits to people at risk including the elderly who are one of our priority risk groups.
