June 23

Notice of upcoming building renovation work at Rillwood Medical Centre

Dear Patients and visitors,

You may be aware that the surgery recently completed the refurbishment of all the bench seating in the patient waiting room. This notification is to make aware that further renovation and maintenance work is scheduled to commence at Rillwood Medical Centre at the end of June 2023 and will take an estimated three weeks to complete.

This work involves replacing and relocating pipework for the gas radiator central heating system as well as the underfloor hot and water supply pipes.

Surgery services will continue to be provided as usual. We appreciate your understanding whilst the renovation work is in progress.

Our building contractors will make every effort to keep the common spaces clean and minimise the amount of disruption or noise to patients, visitors, and staff during this time.

Please do contact us should you have any concerns during the period that the renovation work is taking place and thank you for your understanding in advance.

Yours sincerely,

Dr Zafar & Partners
