10 February 2016

Dear Mr Gibson

The report to follow outlines your results from the Friends and Family Test. This report is based on the feedback from 18 patient questionnaires in January 2016.

In order to enable us to improve our services we would be grateful if you could complete a feedback form using the following link: <http://www.cfepsurveys.co.uk/questionnaires/feedback/default.aspx?psid=188292>

Please contact the office on 01392 823766 or reports@cfepsurveys.co.uk if you require further information about your results.

I hope the report forms a useful basis for reflection on the service provided to patients.

Yours sincerely

CFEP UK Reports Team

Sample patient questionnaire

Frequency and distribution of ratings for the Friends and Family Test question

How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?

Table 1

Criteria category for scoring	Response scale	Number of responses	Percentage of responses*
Promoters	Extremely likely	13	72%
Passive	Likely	5	28%
Detractors	Neither likely nor unlikely	0	0%
	Unlikely	0	0%
	Extremely unlikely	0	0%
	Don't know	0	0%
Total responses to this question		18	100%

* May not add up to 100% due to rounding

Graph 1

100% of patients who responded to the survey would be either extremely likely or likely to recommend your practice to friends and family if they needed similar care or treatment.

The sum of the 'Extremely likely' and 'Likely' percentage of responses in Table 1 may not equal the percentage in the grey box above due to rounding.

Of those 18 patients who answered the Friends and Family Test question, 18 (100%), filled out a paper questionnaire and 0 (0%), completed a questionnaire online.

Cumulative and previous survey information

Patient comments

The following comments are from patients who indicated that they were happy for these to be made public.

All comments are included in their entirety but all attempts have been made to remove details which could identify specific patients or practitioners.

Please tell us why you answered as you did in question 1:

- You're the local GP.
- Happy with the treatment received at this practice.
- Have always been dealt with in a friendly and efficient manner. No complaints.
- Because the doctors are really good and understanding. The receptionists and pharmacy people are helpful and I can always get an appointment when I need one!
- A well run surgery, staff are kind and helpful. The doctors and nurses are extremely good. Thank you.
- Because including today I have had very positive experiences at this surgery.
- I've always had excellent service. Kind and efficient support and care. However, as a deaf person, making contact via text or email would be a big advance! I usually have to come to the surgery, face to face. Telephoning is always a challenge, especially when ill/emergency.
- Appointments are generally available. Plenty of doctors and nurses.
- Convenient. Polite. Compared to others good on appointments.
- Good care.

Additional information on the Friends and Family Test

The Friends and Family Test (FFT) is a feedback tool that supports the fundamental principle that people who use NHS services should have the opportunity to provide feedback on their experience that can be used to improve services. It is not a traditional survey. It is a continuous feedback loop between patients and practices.

Practices can use the feedback gathered through the FFT to celebrate successes and to support staff to make improvements where the experience of service does not live up to expectations. FFT results are also one useful source of information which can help to inform choice for patients and the public.

More information and guidance about the use of the FFT in the NHS can be found at <http://offlinehbpl.hbpl.co.uk/NewsAttachments/PGH/FFT.pdf> and <http://www.england.nhs.uk/wp-content/uploads/2014/07/fft-imp-guid-14.pdf>.
