

Moretonhampstead Health Centre

Who will we share your information with?

Improved Access – S1 to EMIS (Currently not integrated)

As part of our Improved Access Initiative, Moretonhampstead Health Centre patients will be able to book evening and weekend appointments, both here and at other local Health Centres, (Okehampton, Crediton, Wallingbrook, Mid Devon, Chagford and Bow) . This will benefit you as a patient as it ensures that there are more appointments available to you at times that are more convenient out of the practice's usual hours.

To ensure that the Clinician has full access to a summary of your medical records, when you book your appointment the administrator will ask you to consent to sharing your medical records summary, which will ensure an effective and safe service. Your medical records summary will contain limited medical information to the clinician.

This sharing occurs by the medical records summary being securely emailed to the practice that you choose to visit and the sharing only occurs when you choose to book an appointment at another practice. You will be reminded of this when you book the appointment and your consent to share your medical records summary is taken is taken.

The clinician you visit will be required to gain your consent prior to accessing your medical records summary. We will be notified of the outcome of your appointment via secure email and your medical records will be updated accordingly. We will review this to ensure any follow up is actioned.

If you have any concerns about this, or object to the sharing of your medical record in this way, please speak to one of our reception team, who will be able to record your decision and change the settings for your record.
