Sharing Your Medical Record – Opt out form

Title	Surname	Forename
Address (please include postcode)		
D.O.B	Home Tel	Mobile
<i>If you are filling out this form on behalf of another person or child, please ensure you fill out their details above and your details below</i>		
Your Name	Relationship to the patient	

****PLEASE ONLY SIGN THOSE SECTIONS BELOW THAT YOU WISH TO OPT OUT OF****

1) Shared Medical Records in North Staffordshire & Stoke on Trent (leaflet available in reception)

Health services in North Staffordshire and Stoke-on-Trent are introducing a new system of sharing medical records. If you attend the Accident and Emergency Department, Acute Medical Unit, Surgical Assessment Unit or the Frail Elderly Assessment Unit at University Hospital of North Staffordshire, the Consultants/Doctors there will be able to view some of your GP medical record - but only with your permission.

I **DO NOT** wish to share my medical record for the purpose identified above (93C1)

2) Summary Care Record (information available on request)

Data is uploaded from your GP practice to create your Summary Care Record (SCR). Your SCR contains important information about your medication, allergies and reactions to medicines that you have had. This information can then be used when caring for you in an emergency, when your GP practice is closed or when you are away from home elsewhere in England. Your Summary Care Record will also include your name, address, date of birth and your unique NHS Number to help identify you correctly. You may want to add other details about your care to your Summary Care Record eventually. Healthcare staff will ask your permission every time they need to look at your Summary Care Record. If they cannot ask you, e.g. if you are unconscious, healthcare staff may look at your record without asking you. If they have to do this, they must record the reason on your record.

I **DO NOT** wish to share my medical record for the purpose identified above (9Ndo)

3) Better Information means better care (leaflet available in reception)

GP practices across England are now required to supply information about patients' and the care they receive, to the Health and Social Care Information Centre (HSCIC). Under the Health and Social Care Act 2012, GP practices have no choice but to allow the HSCIC to extract this information. The NHS uses this information to plan and improve services for patients. Information such as your postcode and NHS number (never your name) will be used to link records in a secure system so that information which does not reveal your identity can be used by others such as researchers and those planning health services to make sure we provide the best possible care for everyone.

I **DO NOT** wish to share my medical record for the purpose identified above (9Nu0 and 9Nu4)
