We deliver a variety of services designed to support people with sight loss to live happy, healthy, independent lives.

## Assessment, advice and signposting

To start the process of supporting you we carry out our Sight Loss MOT. This is a short conversation over the phone to identify your needs to find out how we can help you. We are then able to build a tailored package of support for you, which might include services we offer, or putting you in touch with other partner organisations, including the RNIB, our delivery partner.

**Call our Support Line** 0121 478 5222 and we will guide you through services available.
