

1. Book your Appointments

Book and manage your GP appointments 24/7, wherever you are

You can book appointments at your practice or local area

Fast, convenient and completely confidential

No need to call your surgery if you want to see your Doctor, Nurse or Health Care Assistant

How safe is my data?

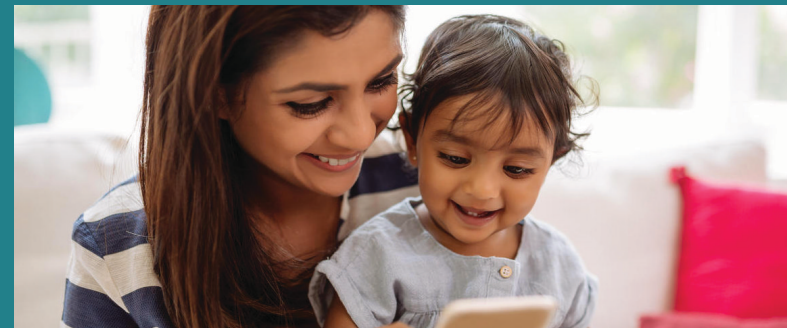

We take your data security very seriously. Our app uses a two-step verification and encryption process, to ensure your data is always safe and secure. You'll be in full control of your data - and we'd never share it without your consent.

How do I sign up?

It's quick and easy to get an account. You can sign up in your surgery, or get started online at:

patientpack.co.uk

Have you tried our new PatientPack App?

We're excited to introduce our new PatientPack App.

Now you can book and manage your appointments, access your medical records, and manage your medication - all online, safely and securely.

Using our app is easy and simple.

2. Access your Medical Records

Instant and secure access to your medical records

See your latest test results, monitor any changes, and much more

Available 24/7 wherever you are, on desktop, tablet or mobile devices

3. Manage your Medication

Quick and hassle-free repeat prescription service

Full details on how and when to take your medication

No more unnecessary trips to the surgery to pick up prescriptions
