## What is Healthier You?

- ✔ It's a way of finding out more about how you can reduce your risk of developing diabetes
- ✔ It's an opportunity to meet remotely and share experiences with others

“

A five star approach! I can't wait to get to my practice to see my nurse to tell her how good it's been!

Healthier You Participant

”

## So, what's involved?

You are being invited to remotely join a small group of people with pre-diabetes on a Healthier You online education programme.

The sessions will be led by facilitators who are trained to ensure that you are provided with honest, up-to-date, evidence-based information about the causes, effects and options for managing your pre-diabetes.

## What makes Healthier You so special?

Healthier You is pretty unique. It's a group programme designed to support you, the person with pre-diabetes, to become the expert. The facilitators are there to help you increase your knowledge and understanding of what having pre-diabetes will mean for you. But, throughout the programme, from beginning to end, you will be the person in control and making the decisions.

## What will I have to do?

That's easy! You need to be prepared to attend the Healthier You online programme. This is for your benefit, so that you can be sure of having all the information you need. During the sessions, you will be one of a group of people with pre-diabetes who will be taking part. The Healthier You programme is built around group activities, but there will be opportunities for individuals to speak to an facilitator on their own if they wish.

## What will I get out of Healthier You?

Quite a lot! As well as getting up-to-date information about pre-diabetes, you will learn practical skills which you may find helpful in managing your pre-diabetes. An opportunity will be provided to discuss and explore factors relating to pre-diabetes, such as food choices and activity.

You will also be able to talk to others in the same situation and at the end of the sessions, everyone taking part will have information to take away for reference.

## But I've never taken part in anything like this before!

For some people, taking an active part in an education programme like Healthier You may seem strange. But if the word 'education' conjures up images of being back in school – think again!

In Healthier You, the online sessions are informal and friendly. The local co-ordination team running the programme are very approachable and part of their job is to make you feel welcome and comfortable about attending.

If you find the idea of joining in at these sessions too difficult, no one will make you contribute. But you will get much more out of them if you are prepared to share your experiences, thoughts and opinions. If you would like to have your partner, a family member or a friend sit with you during the sessions, they will be very welcome.

## What if I decide it's not for me?

We think you will find Healthier You a great help in learning more about, and getting control of, your prediabetes. Your GP thinks so too, which is why he or she has brought the programme to your attention.

When you first find out you have pre-diabetes, you need a good start in making healthy lifestyle choices. Healthier You gives you that good start. However, if you decide not to take part, you will still receive care as usual from your GP and practice nurse.

## I'm keen to start, so what happens next?

Your local co-ordination team will contact you with dates, times and details about how to access the online sessions. After that, simply log on and take part!
