

28 January 2021

Dear Patient,

COVID-19 Vaccination Programme Update

As you may be aware since 16 January 2021 we have been working hard, as part of our PCN (collaboration of GP practices), to vaccinate our patients aged 75 & over. In eleven days we have vaccinated over 4,600 patients.

We understand that some patients are worried that they have not received an invite yet but we are required by NHS England to invite patients in specific age groups. Later this week, we hope to be inviting patients aged 70 - 74, subject to receiving confirmation of our vaccine delivery date.

If you do receive a letter from NHS England offering you the option to book a COVID-19 vaccination at a regional vaccination centre, such as Manchester or Macclesfield, you may book your vaccination or wait until practice offers you an appointment. Whichever you choose we WILL invite all eligible patients who have not already had the vaccine.

Thank you for your ongoing support and patience during these difficult times.

Yours sincerely

Dr Andrew Johnson

Dr Maher Al-Ausi
