

26 May 2021

Dear Patient,

Don't wait on the telephone, book your appointments online

We are pleased to confirm that you can now book your appointments online. This helps you choose a convenient appointment time without having to wait on the telephone, and helps us to manage other workload like prescriptions and referrals.

[Download the NHS App](#)

If you haven't booked an appointment online please download the NHS App which allows you to **book appointments, request prescriptions and view your medical record online.**

You can also access your vaccinations history and share your COVID vaccination status with others for travel purposes (the so-called 'Vaccination passport')

Registering is quick and easy by registering online, you do not need to provide any identification at the practice.

The NHS App is available on iOS and Android. To use it you must be aged 13 and over and registered with a GP surgery in England. Please click below to download the NHS App.

Yours sincerely

Dr Andrew Johnson

Dr Maher Al-Ausi
