

Dollar Medical Practice

Dollar, Clackmannanshire, Forth Valley

GP vacancy from summer 2024 4-6 sessions as a GP partner or as a salaried doctor with a view to partnership

Dollar Medical Practice is looking for an enthusiastic GP to join our team.

We know that it is a challenging time for general practice in Scotland. That is why a move to Dollar Medical Practice could be the right move for you! Located in a beautiful semi-rural setting between Stirling and Perth, we serve the population of Dollar and the surrounding area (5500 patients). We have a strong patient-focus and pride ourselves in providing an excellent person-centred service for our population, with an emphasis on continuity of care. The local community is supportive of the practice, and we have correspondingly excellent patient experience results.

Everyone in our team has an important contribution to make and is valued. Our team comprises 4 GPs, 3 ANPs, 2 GP Registrars, a practice nurse, health care assistant, CTAC staff, mental health nurse, advanced physiotherapy practitioner, a practice-based pharmacist, a pharmacy technician, and community nurses. All are supported by an experienced admin team and practice manager.

GPs have 15-minute consultations as standard, and we run a bespoke triage system. We are a training practice and all clinical staff have protected time to attend a daily 20-minute huddle where anyone can ask for advice, share learning, and provide support over a coffee.

Health board owned premises. EMIS system (moving to VISION in 2025). Likely to be eligible for Golden Hello payment.

Are you interested in finding out more? If so, then please email Jo or Paul and we will send you an information pack about the practice and details of how to apply. You are welcome to visit for an informal chat and speak to our amazing team. All enquiries will be treated confidentially. Applications by 11th March with interviews provisionally the afternoon / evening of 20th March.

Jo Leggetter (Practice Manager)
Paul Baughan (GP partner)
