

NBODNG - Services Action Plan (Guide to Pathways DOS)

Management of surge and escalation in critical care services,
including the response to Covid-19 Pandemic
Adult and Paediatric Burn Care Services in England and Wales

This document is intended as an accompaniment to the Specialised Burns SOP for Surge & Escalation in burns critical care services and the Burns Annex to NHS England Concept of Operations for Mass Casualty Incidents. It is intended to assist specialised burn services in managing capacity and capability during periods of activity pressure caused by:

- a surge in normal business (BBA Standards [2018] Reference G.10)

BURNS SERVICE DECLARED LEVELS OF ESCALATION

B-OPEL 1

The Burn Service is operating at normal levels and can respond through individual organisational surge plans.

- **The Burn Service is self-declared B-OPEL 1**

B-OPEL 2

The Burn Service is operating at above normal levels. It is unable to respond through organisational surge levels and MUTUAL AID is required from other burn services.

- **The Burn Service is self-declared B-OPEL 2**

NBODNG - Services Action Plan (Guide to Pathways DOS)

NBBB Reports

SOP Normal Business

As part of the normal business process, the National Burns Bed Bureau provides a twice daily report on service and network bed availability and bed occupancy. The report provides analysis of:

- The bed availability and B-OPEL Status for each burns service, as provided by the service through DOS Pathways.
 - Burns Centres and Burn Units are indicated separately (even if the two services are provided from a single site).
 - The number of burn centres (and burn units) closed at B-OPEL 2
 - The number of burn networks closed at B-OPEL 3 (applies only to burn centres in a network)
 - The NHSE Regional and National EPRR position.
-
- As part of the COVID-19 Sit-Rep, the report provides analysis of burns bed occupancy, for patients with a burn injury and non-burns or Covid-19 patients without a burn.
 - The report is circulated to stakeholders via email link, by the NBBB twice each day, normally between 10am and midday and between 3pm and 6pm.

NBODNG - Services Action Plan (Guide to Pathways DOS)

NBBB Reports

SOP Normal Business

As part of the normal business process, the National Burns Bed Bureau provides a twice daily report on service and network bed availability and bed occupancy. The report provides analysis of:

- The bed availability and B-OPEL Status for each burns service, as provided by the service through DOS Pathways.
 - Burns Centres and Burn Units are indicated separately (even if the two services are provided from a single site).
 - The number of burn centres (and burn units) closed at B-OPEL 2
 - The number of burn networks closed at B-OPEL 3 (applies only to burn centres in a network)
 - The NHSE Regional and National EPRR position.
-
- As part of the COVID-19 Sit-Rep, the report provides analysis of burns bed occupancy, for patients with a burn injury and non-burns or Covid-19 patients without a burn.
 - The report is circulated to stakeholders via email link, by the NBBB twice each day, normally between 10am and midday and between 3pm and 6pm.

IT IS CRUCIALLY IMPORTANT THAT THE FIGURES ON THE PATHWAYS DOS SYSTEM ARE ACCURATE AND UP TO DATE.
