

**IMPORTANT:**

A study leave request must be submitted to Accent Leave Manager (ALM) for half a day for each week of regional teaching. To reduce ALM entries, one entry can be made per term with the total number of days requested and in the breakdown, the individual days identified. For example, if you are a fulltime registrar one request for 5 full study leave days can be made and in the detail box identify the weeks of teaching you will be attending. Remember each day of regional teaching is 0.5 study leave days. LTFT registrars should only attend a pro rata number of sessions e.g. if you are 60% only attend 6 sessions each term (3 days), 80% attend 8 sessions (4 days). If you have questions regarding ALM please visit the study leave homepage at [Home](#)

Date & Location	ST1 Year Group	ST2 Year Group	ST3 Year Group
