

Preparing for the AKT

A straw pole of current West Herts ST3's who passed the AKT by a good margin revealed that most prefer to prepare by doing lots of practice questions and using the links to read around the areas in which they feel weak.

The following sites are recommended by the ST3's:

onExamination.com

<http://www.onexamination.com/worldwide/mrcgp>

passmedicine.com

<http://www.passmedicine.com/>

pastest

<http://www.pastest.co.uk/>

Reading for those who like a systematic approach:

InnovAiT – the journal for RCGP Associates in Training

<http://rcgp-innovait.oxfordjournals.org/>

NICE Guidelines

BNF

“Statistics at Square One” by Campbell and Swinscow

There are two BMJ Learning Modules on statistics

Courses and Study Days:

The autumn study day for the ST2 group is usually about statistics and the interpretation of trials and evidence.
